AUTOMATIC SUCTION CLEANERS

Bolero ND

Automatic suction pool cleaner with a membrane system suitable for all types of pools. It uses the pump filtration circuit as an energy source. The cleaner can climb walls and vacuum the dirt from the floor. Easy installation and maintenance. It is supplied with fittings that measure and control the waterflow, so it ensures the best performance in the pool. In order to cover the entire surface of the pool, it includes 12 sections of flexible hose (1 metre each), and a deflector ring that prevents the Bolero ND getting trapped.

Code	Standard Packing	Standard Weight kg	Standard Volume m ³
43395	1	7	0.092

Tigrus Hydra pressure cleaner

Pressure side cleaner for private swimming pools up to 6 x 12 m. It does not require the installation of an additional booster pump. It can therefore be connected directly to the return nozzles and will work according to the filtration program. It has an Easy-Clean filter bag that is easy to remove and clean

Suction cleaner hydraulic Tigrus

Vals

Suction side pool cleaner suitable for all types of private pools. Connected to the pool's suction nozzle or the skimmer, it is able to suck up all the dirt on the pool bottom and walls. It works silently thanks to membrane technology. Its energy source is the pump of the filtration system and dirt is retained by the pool's filtration system. Easy to install by the end user without the need for tools. It is supplied with 14 flexible hoses (0.8 m each) that can be easily connected to adjust the total length of the hose to the size of the pool.

Code	Standard Packing	Standard Weight kg	Standard Volume m ³
53789	1	6	0.05

Suction cleaner Vals

Mamba

Mamba can be installed in minutes without any tools and requires no alteration to your pool. It can be adopted to flat-bottomed or sloped pools and can be used in above ground pools. It is connected directly to the skimmer or the suction line. It works by suction with no need of electricity using the existing filtration system (4m³/h minimum). It is supplied with a 10 m special hose for greater efficiency. It is a cleaner and also a mobile main drain. It is supplied with a pressure regulator to ensure constant flow.

Code	Standard Packing	Standard Weight kg	Standard Volume m ³
38467	1	8.1	0.061

Mamba XS

The main application is to clean the bottom of a above ground pool. It is a portable auto cleaner for above ground swimming pools. It can work with 70cm height of water and pumps up to 0,5Hp. It is manufactured in ABS and TPU, the product can resist chemicals and temperature variations for years. The product size is small, so it can be operated conveniently in above ground swimming pools with small pumps/flow rates. Standard autocleaners must have at least 1m height of water in the swimming pool to work. This one can work in swimming pools with a water height lower than 1m. That makes it very convenient for small above ground pools. It can run also with low power pumps.

Tigrus Elec

New

Automatic electric pool bottom for private pools. Great suction capacity and shorter cleaning cycles thanks to a patented touch and turn feature. It saves energy thanks to its efficiency: it consumes half the energy of its competitors (just 65 W). Light and compact power supply with a 230 VAC/50 Hz input and 24 VDC output. It has 4 alternative cleaning cycles, with automatic shut-off: 1, 2, 3 or 4 hours, with LED indicators to show the time selected. With 17 m of floating cable, it can be used in pools up to 8 x 14 m.

	Code	Standard Packing	Standard Weight kg	Standard Volume m ³

Turbo T-Jet

New

- Complete cleaning of any residential pool up to 16 m. long in as little as 1 hour
- Total pool maintenance savings of as much as 75%
- Hoseless, self-contained touch button convenience; works independent of pool's filter
- Acts as secondary pool filtration / circulation system
- Enables reduction of main pool filter system run time by as great as 70%
- Is over 90% more energy efficient than other cleaning systems
- DeepClean™ HydroScrubbing power wash jets clean what and where other cleaners can't
- Virtually wear and tear free operation; No gears, bearings, tracks, brushes to replace ever!
- Massive 34 quart maximum volume capacity traps everything; so your pool filter works less
- Offset vacuum ports provides clog-free operation; separates bunches of leaves
- Customizable debris intake ports for largest width openings and lowest suction points
- NeverStuck™ roller system for stuck-free operation over raised surface obstacles
- Largest capacity reusable filter – more debris with less cleanings
- Free additional filter.
- Industry's healthiest filtration (down to 2 microns) and water circulation (18 m³/h)
- Convenient touch button or fully automatic operation (using your own external timer)
- Digital LED time display with StayCool™ all-weather-resistant power supply
- Lightweight (about 4.5 Kg.) and ultra-durable
- Supported by the largest and leading support network in the industry
- The ideal solution for any hard-surface pool owner looking for long term reliability and durability.

Suction cleaner Turbo T-Jet	55863	1	-	-

AUTOMATIC SUCTION CLEANERS

New

Jet Max Ultra

Recommended for pools up to 200'-77 m.

Advanced features include:

- TRIPLE Pump Motors and TRIPLE Filters make this cleaner the best solution to oversized outdoor pools and heavy bather loads.
- It can clean pools as large as 77m long in half the time as other cleaners.
- At only 22.2 Kg. it weighs less than most cleaners that are half of its size. There's no other cleaner available that weighs as little and performs as well in largest pools.
- Unique scanning pattern allows the machine to fully vacuum any Olympic pool in 1 hour.
- Oversized pools it can clean in as little as 3 hours.
- Perfect for the slopes and curves of Grecian, Kidney-shape, or gradient-walled pools.
- Ideal for uniform depth or sloped Olympic and Jr. Olympic pools.
- Works well with varying depths or dive wells.
- Additional floatation for wall-climbing and steep grades.
- Virtually FREE of consumable "wear and tear" parts.
- The only parts to clean, maintain, or replace are the internal Filter Bags.
- JetDrive Propulsion System uses the water pressure from the Pump to "drive" the unit.
- No Drive Motor needed!
- Obstacle Sensors to detect walls and objects in the pool. Magnetic sensors detect stopped motion.
- Non-scuff, non-marring rubber wheels guide the momentum of the JetDrive Propulsion.
- No Belts or Tracks needed!
- Hydroscrub Power Wash System lifts debris from the floor with pressurized water.
- No Brushes needed
- 46 m floating cable to accommodate the largest pools.
- Complete set of Filter Bags (3 Fine Filter / 3 Mesh Filter) to capture all types of debris.
- 1 Year Warranty on plastics, Power Supply, Cable, and Motor.
- Stay Cool Power Supply with Continuous Running to accommodate the largest pools.
- Adjustable Axle with Directional Guidance Screws to set cleaning pattern for the pool's width.

	Code	Standard Packing	Standard Weight kg	Standard Volume m ³
Suction cleaner Jet Max Ultra	55246	1	-	-

POOL CLEANING EQUIPMENT

Jet Max Turbo

New

Recommended for pools up to 37 m.

JetMAX Turbo unique features include:

- Virtually FREE of consumable "wear and tear" parts.
- 37 floating cable to accommodate the largest pools.
- 1 Year Warranty on plastics, electronics and motors.
- At 19.5 Kg. it is easy to handle, operate and remove from the pool.
- Cleans all commercial pools up to 37 m. long; in half the time of any other cleaner.
- Unique scanning pattern guides the cleaner to fully vacuum most pool floors in about 1 hour.
- Complete set of Filter Bags (1 Fine Filter / 1 Mesh Filter) to capture all types of debris.
- Perfect for the slopes, curls, and curves of Grecian, Kidney-shape, or gradient-walled pools.
- JetDrive Propulsion uses the water pressure from the Pump to move the unit. No Drive Motor needed!
- High-Volume Pump Motor increases cleaner suction, filtration, and Jet Drive propulsion speed.
- Obstacle Sensors to detect walls and objects in the pool. Magnetic sensors detect stopped motion.
- Non-scuff rubber wheels guide the momentum of the JetDrive Propulsion. No Belts or Tracks needed!
- Hydroscrub System power-washes debris from the floor with pressurized water. No Brushes needed!
- Pump has Thermostat Box to regulate temperature, prolong motor life and reduce service costs.
- Optional Pole attachment for manual use. Attach a standard extension pole and use as a manual vacuum
